A night photograph of a restaurant building. On the left, a tall pole holds a large, illuminated sign that appears to say 'MAX'S'. The building has a dark facade with several windows and a prominent triangular roof structure. Large trees are visible in the background, and a car is partially visible in the foreground on the right. The sky is dark blue.

The original house that fried chicken built
stands as a symbol of culture and tradition.
Established in 1945, this flagship home of Max's Restaurant
in Scout Tuazon, Quezon City still proudly serves our
signature fried chicken and continues to welcome
generations with a familiar sense of warmth. A place where
memories are made, stories are shared,
and heritage is celebrated.
